PROFESSIONAL EXPERIENCE

Technological Analyst Intern

Fiserv

📅 July 2022 – Sept 2022

📍 Pune, India

- Worked on the pending financials project of Fiserv GBS which will help the customer analyze the difference between the posting and funded financials.
- The main focus of the project is to organize the financial data and provide the customer with a detailed analysis of the spending and earning to manage finances in a better way.
- Contributed to the development of the project from scratch starting from data preparation, designing the UI all the way to the development of the product.
- Used AngularJS, MySQL and Java for the development of the project.

Software Engineer Intern

Pyramid Developers

📅 July 2021 – Dec 2021

📍 Bangalore, India (Remote)

- Worked on the React based web application of Pyramid Developers and contributed to the development of the updated website of HR Infopro.
- Implemented a slider control navigation to list the projects of the company using glide in glidejs. This feature made the site look more compact and became easy to navigate.
- Worked on the book-flip page animation for easy blog navigation on HR Infopro website.
- Worked on performing code and image optimizations which helped improved sites speed performance by 2% (from 61% to 63% in mobile and 93% to 95% on desktop).
- Worked on solving a major bug in the HR Infopro website by updating the fetch API calls caused due to the usage of outdated version of the Google Sheet fetch API calls.

ACHIEVEMENTS AND EXPERIENCE
